What’s Happening at the Study Abroad Fair?

The Study Abroad Fair can be overwhelming when you first walk into Varsity Hall! Here are some things to watch out for during your visit:

1. Not sure where to start? Stop by one of the IAP Information Tables in the Varsity Hall foyer to talk with an International Academic Programs representative.

2. Attend a Study Abroad 101 session in Sift and Winnow. Sessions start every 30 minutes. Bring the questions you always wanted to ask about study abroad and learn the basics in an informal and fun setting.

3. Keep an eye out for Bucky around 5:00-5:30PM.

4. Talk with returned students and faculty/staff at the program tables throughout the fair.

5. Stop by the Financial Advising tables in the Varsity Hall foyer and learn more about funding your time abroad and scholarships that are available.

6. Enter your name in the Study Abroad Fair Drawing to win great prizes such as a $200 Study Abroad Scholarship or various gift certificates for State Street and local Restaurants and Businesses.

7. Attend Study Abroad for Biology Majors from 3:30-4:00PM in the Sift and Winnow Room. Both academic and study abroad advisors will present an overview of studying abroad as a Biology major.

8. Check out the Returned Student Posters located throughout the fair to read about the different experiences Badgers have had abroad.

9. Look for IAP staff walking around the fair for help in locating a program or to talk through programs that might work best for you.

10. Watch the Photo Slideshow scrolling on the screens in Varsity Hall to see pictures from Badgers Abroad as well as other campus wide information.
