TEL AVIV, ISRAEL

DANNA REUVEN

Danna’s Major: Management and Human Resources, Global Cultures and Leadership Certificate

Program: Tel Aviv University, Spring

Academic Life: Before the semester began, we were required to take a five-week intensive Hebrew course called Ulpan. Although it was difficult, it was the best way to get to know the other international students on the Tel Aviv University program. We took our classes on the TAU campus alongside locals and international students.

Most Memorable Experience: My friends and I traveled to Northern Israel for the three-day Indigo Music Festival where we camped on the historic Sea of Galilee. We bought tents and camping supplies and swam in the largest freshwater lake in Israel while listening to live music by Israeli and international bands and artists. This experience allowed us to independently find transportation around the country and meet local and international individuals who all came together to share in the festivities.

Housing: During my time abroad, I lived in the campus dorms directly across from the university. I lived in a suite style room with a roommate and two other suite mates. The four of us shared a kitchen, common space and a bathroom. We lived in a highly secure and newly renovated building with international and local students. At the end of my program, I extended my time in the country and rented an apartment in the city center.

“The perfect place for any student interested in learning a language, immersion into Israeli culture and the opportunity to meet and live with students from all over the world.”
