Program: Yonsei University Exchange, Semester

Pa Done’s Major: International Studies

Academic Life: My academic setting was the same as the United States’ academic setting, as there were classrooms and lecture halls. We had lectures and like in America, with PowerPoint presentations given to the class. I took classes that went towards my International Studies major, and they were all specifically directed towards study abroad students. They were all taught in English, and everyone in them were foreign exchange students like myself.

Most Memorable Moments: My most memorable experience was when I went hiking around the country, and when I traveled outside of my host city.

Advice for Someone Considering Yonsei University: Make sure to challenge yourself little by little each and every day, so that you don’t get uncomfortable if you try to challenge yourself a lot at once.

Housing: I lived in university housing, in the residence halls on campus. They were very similar to University of Wisconsin-Madison’s. I lived with a roommate as well.

What Pa Done Learned About Herself: During my semester abroad, I learned that I am a very family-oriented person and I probably wouldn’t have been able to study abroad too far and for too long a period of time. A semester is the perfect amount amount of time to spend out of the country, and I’m glad that I did that length of duration for my abroad experience.

“I learned a lot of interpersonal skills, and a lot about myself as well.”
